

**Teachers are Talking about *Inside Writing* for
Grades 6-8. . .**

"I was very pleased with the overall program. Information was given in a clear, easy format for the student. Prewriting ideas motivated the students to get started right away. Layouts and illustrations were well done and attractive."

Greta Leighty, Teacher
Stonewall Jackson Middle
School, Charleston, WV

"My overall experience was a positive one. My students were finally involved in the editing/revising process which had been a struggle before. I now have new ways to approach these areas with my students."

Ellen Frank, Teacher
Welsh Valley Middle School,
Narberth, PA

"This was an excellent guide for my struggling writers. It really gave them the help they needed. It broke it down on a level they understood."

Ayanna Tuitt, Teacher
Solomon Middle School,
Greenville, MS

"I found *Inside Writing* to be very teacher and student friendly. Having all of the components in one resource made the writing, organization and follow-up easy to manage."

Susan Sivak, Teacher
Ridgeview Middle School,
Gaithersburg, MD

"Very good—the students responded very well. They liked working on their narrative one segment at a time. I liked the checklist they could use to check their writing before going on to the next step."

Necia Gunnels, Teacher
Evans Middle School,
Evans, GA

"They [the students] were forced to be organized and meet small goals each step of the way. All papers stayed together and both they and I could review progress."

Amy Furman, Teacher
Aprende Middle School,
Chandler, AZ
