

Teachers are Talking about *Math at Hand* . . .

“I like this book! It is comprehensive and user-friendly. The students really respond to the format of *Writers Express* and are looking forward to this resource for math.”

Marjorie Marantz, Teacher
Fairburn Avenue Elementary, Los Angeles, CA

“I like both *Math at Hand* and *Math on Call*. I recommend to parents to have at home and to use as one would use a dictionary for Language Arts.”

Diane Heald, Math Coordinator
St. John of Rochester, Fairport, NY

“Your *Math at Hand* book is very user-friendly. I like the step-by-step examples, which are extremely easy for the students to follow and understand.”

Sheila Manning, Teacher
Locust Elementary, Fontana, CA

“I like the way the handbook addresses the problem-solving approach by illustrating each stage needed for a correct solution. I plan to give my sixth grade students this handbook as a graduation gift, since it will reinforce lessons needed for success in middle school.”

Carolyn Wilson, Teacher
Good Shepherd Christian School, Los Angeles, CA

“I think this is a great resource. It breaks the concepts down into simplified terms. It also provides easy-to-read and understandable instructions.”

Emil Kush, Principal
Pearl Lean Elementary, Warren, MI

“I like the organization of this book. It was written in a style that will meet the needs of all learners. This was an excellent resource for math programs. I’ve never seen such a wonderful presentation/explanation of math as a subject.”

Martha Gelagay, Reading/Math Teacher
Coastal Middle School, Savannah, GA

“The problem solving chapter is fabulous! The strategies are clearly explained in both words and illustrations. A must for every teacher who is working with problem solving. I love it!”

Kerry Noll, Teacher
Enterprise Elementary, Federal Way, WA
