

Teachers are Talking about *Math to Know*. . .

“The handbook covers every essential area for intermediate/primary math concepts. I like the organized and colorful way things are spread out. It seems like a very systematic way.”

Colleen Haney, Teacher
Foothills Community Christian School,
Great Falls, MT

“I like how the thinking is printed out—the pictures and use of color is wonderful! The hints and clues to remember are useful.”

Carla Fritz, Teacher
AuGres-Sims Elementary
AuGres, MI

“I like the way you give real life examples and also interesting facts. I like that you give several ways to solve the same problems.”

Pam Meiser, Teacher
Barbara B. Rose Elementary
South Barrington, IL

“Good basic handbook for students, parents and teachers.”

Gary Barnhart, Math Teacher
Choconut Valley Elementary
Friendsville, PA

“It is like a math dictionary for parents who help their children with homework.”

Georgie Lukas, Teacher
Naper Elementary
Naperville, IL
