

Teachers are Talking about *Math to Learn*. . .

"I love how easy to use the book is! Great color & illustrations. Very engaging for students! I am very impressed. A handbook is a great idea. Struggling math learners can get extra reinforcement on topics they are struggling with!"

Jennifer McGhee, Teacher
Pendle Hill Friends School Greensboro, NC

"Great resource for parents. I'd love to see parents with copies at home to assist children with homework."

Lisa Rizzo, Teacher
Boyden Elementary School
Walpole, MA

"It is very colorful and appealing. It's sequentially organized and there's not too much on any given page."

Mary Jo Capone, Teacher
Collings Lakes Elementary Williamstown, NJ

"The information is not confusing and directions are clear and concise. The colorful displays of student pages are interesting to young learners. The geometry and algebraic thinking sessions were well covered and useful [for] students."

Joanne Johnson, Teacher
Greene County Tech,
Paragould AR

"I like it because it covers all information in a 'kid interest' kind of way."

William Ack, Math Teacher
Bloomington School
Bloomington, MD

"I really like the 'yellow pages'. This handbook would/could be very helpful to parents trying to help with homework! I'm pleased to see the inclusion of statistics, logical reasoning and problem solving. The 'Almanac' is helpful in all subjects!"

Michelle Counter, Teacher
St. Joseph Catholic School
Winter Haven, FL
