

Teachers are Talking about *ScienceSaurus* . . .

“Excellent! I could teach my entire curriculum in this *one* book. The book enables students to learn specific science info with illustrations.”

Ann C. Shirley, Science Teacher
Michel Junior High School
Biloxi, MS

“Great stuff. I wish all my students had one of these at home! I like the scientist list in the back, the appendix on graphing, and the SciLINKs. Well done!”

Renee Rose, Teacher
Libby Middle School
Libby, MT

“Great Book! Super pictures and very detailed. The students think it looks fantastic!”

Nicki Bowsen, Science Teacher
Arcanum-Butler Middle School
Arcanum, OH

"Love it! Simple-great size, excellent format, easy for all students to use."

Georgene Bender, Science Teacher
Mary Help of Christians
Tampa, FL

"Great graphics. Excellent section on lab and measurement. Clear, well written definitions; I really like the word watch that explains Latin root word parts."

Ann Wilson, LA Science Program Coordinator
LA Department of Education
Baton Rouge, LA

"Terrific! Very complete, colorful, good examples, easy to understand. They can use it as a reference or a supplement."

Barbara Morefield, Science Teacher
Southern Boone County Middle School
Ashland, MO

“Awesome! Very cool! I could see having a class set and using the book for many things! What a great idea! I've never seen anything like this in 15 years of teaching that is so concise and organized so well."

Janet Myers, Middle School Dept. Chair
Norris Middle School
Firth, NE
