

Teachers and Students are Talking about *Writers INC.* . . .

"It is the most useful tool for both myself and my students! In fact, they found them so useful that the classroom copies would disappear! I think every school district should invest in a handbook for each student. It is an aid to be used in writing across the curriculum that is unsurpassed!"

Marjean Huber, English teacher
Newell High School, Newell, SD

"I like the color coding and the cross-references. I especially appreciate the information about evaluating Web sources, citing Web sources and the Web site for continual updates. I really like the organization, the succinct summaries with examples and the amount of the everyday useful information the *Writers INC* contains."

Nancy Canniff, English Instructor
Millersport High School, Millersport, OH

"I have used *Writers INC* since it was *Basic English Revisited*. It is an excellent handbook and I frequently order copies for students who want their own handbook."

Jan Armstrong, Teacher
Tensas Academy, St. Joseph, LA

"If your goal was to publish the best writer's manual possible, you have succeeded beyond your wildest expectations."

W. Scott Whitlock, Student
East Lawrence High School, Trinity, AL

"As an English teacher, this is the best resource guide for young people in high school and in college. I recommend this resource for anyone who must write a variety of compositions. It includes both APA and MLA style as well as other helpful information."

Kimberly Mack, English teacher
Garfield Junior High School, Hamilton, OH
