

# CLAVE DE RESPUESTAS, EXAMEN FINAL

- |                                                                                      |                                                              |              |
|--------------------------------------------------------------------------------------|--------------------------------------------------------------|--------------|
| 1. 35, 42, 49                                                                        | 11. $3\frac{1}{4}$ tazas                                     | 21. B        |
| 2.  | 12. $12\frac{1}{3}$                                          | 22. D        |
| 3. \$30, \$36, \$42                                                                  | 13. 1.75                                                     | 23. D        |
| 4. 5                                                                                 | 14. $1\frac{1}{2}$                                           | 24. A        |
| 5. 480                                                                               | 15. 3:25                                                     | 25. B        |
| 6. 2,300                                                                             | 16. \$0.77 ó 77¢                                             | 26. C        |
| 7. 4,000                                                                             | 17. 1 de veinticinco, 1 de diez,<br>1 de cinco, y un centavo | 27. B        |
| 8. 423                                                                               | 18. 7¢ ó \$0.07                                              | 28. B        |
| 9. 5,203                                                                             | 19. C                                                        | 29. C        |
| 10. $5\frac{2}{3}$                                                                   | 20. A                                                        | 30. C        |
|                                                                                      |                                                              | 31. Ejemplo: |

32. D

Tested Skills	Item Numbers	Every Day Counts Element(s)
Patterns	1, 2, 3	Calendar, Counting Tape
Number relationships	4, 29	Calendar, Counting Tape
Addition, subtraction, multiplication, division	5, 6, 8, 25, 28	Daily Depositor, Counting Tape, Coin Counter
Place value and rounding	7, 9, 23	Daily Depositors
Fractions	10, 11, 24, 26	Coin Counter, Measurement, A Fraction A Day
Geometric shapes and their attributes	19, 20, 21, 22	Calendar
Analyzing data and making predictions	30, 31, 32	Calendar, Daily Depositor, Graph
Solving problems with time	15, 27	Clock
Solving problems with money	16, 17, 18	Daily Depositor, Coin Counter
Measuring length, weight, and capacity	12, 13, 14	Measurement
